

UNDERGRADUATE EDUCATION POLICY COMMITTEE

***Resolution to Support Expansion of Bus Service
for Class Field Trips***

WHEREAS class field trips are a useful educational tool for a number of University courses; and

WHEREAS when Travel Service stopped offering coach bus services a few years ago, departments experienced a dramatic increase in transportation costs when they were forced to use private bus vendors (In most cases, the costs doubled or tripled for equivalent trips);

THEREFORE BE IT RESOLVED that the Faculty Senate support a recommendation made by the Chancellor's Agility and Efficiency Task Force on Business Practices that states:

Investigate the University's need and cost feasibility of expanding Travel Service's mini-bus business (25 passengers or less) to offer a lower cost alternative for departments than is currently available from private bus vendors.
